

Kingdom Plantae

April 17th/23

Phyla Bryophyta - Mosses, Liverworts, Hornworts

- More complex than algae but simpler than vascular plants such as trees and flowers.
- Found on **land** but need to be close to water for photosynthesis and reproduction.

Structure :

- have short **stalks** with green leaf-like structures branching off them.
- root-like **rhizoids** from lower part of plant to ground.
